Open the Finder

Navigate to **Applications**, search "Remote" in the search box, and double-click on the **Microsoft Remote Desktop App** to launch the program.

Once the app is launched we suggest keeping it in your **dock**. Right-click the app > Options > Keep in Dock.

Now click on your new icon to begin setting up the PvPlus connection.

#2 Create and Configure a New Remote Connection

When you first launch the app it will look like this:

Click the **(+)** Add button.

This will open the **Add PC** Screen.

- PC name: caifarm.pvplus.com:1494
- Click the dropdown next to User Account and add a new user.
- User name (example): PvPlus\johndoe (Must use backslash)
- **Password:** is chosen by customer and will be case sensitive.
- Friendly name: PvPlus
- Click Add

Do NOT edit any other settings.
